COMPLIMENTARY EDITORIAL PREVIEW

# Room for discovery.

## Beijing > Shanghai

2026-10-15 to 2026-10-21 | 2 travellers | Target CNY 12000

**Planning estimate: CNY 5080-13130 for the group. International flights excluded.**

Assumptions: two travellers per room; CNY 280-750 per room/night; CNY 180-420 per person/day for food, local transport and sights; CNY 300-1,000 per person per intercity journey. One night per trip day is budgeted conservatively. These are planning assumptions, not live quotes.

Beijing: 3 sightseeing day(s), below our 4-5-day suggestion. You may prefer a longer stay.

Beijing > Shanghai: a long-distance transfer. Compare flights with rail and check door-to-door times; this plan does not verify schedules.

Your first day assumes you are already in your first city. Adjust the first and last days around your international arrival and departure.

This is a curated planning draft, not a booking or a live availability check. Verify travel times, opening hours and reservations before committing.

This free preview includes your first two days. The complete paid booklet is not yet on sale.
